

the King's School

Preparing Tomorrow's Leaders Today!

May 12, 2008

Dear Parents and Guardians:

We have had one student confirmed to have a mild case of H1N1. This student was absent before the contagious period due to a family event and has not returned since then. The student is recovering well and was never hospitalized.

We are taking every precaution to keep all students and staff safe. Anyone with flu like symptoms has been sent home as a precaution. We are urging parents to consult their family physician if their students show any symptoms.

We have been in close communication with the Health Department and are working side by side with them. They have assured us that everyone here is safe and that there is no cause for concern.

Sincerely,

*Kellie Girling
Principal*
